The Principles of Universal Design

1 Equitable Use
The design is useful and marketable to people with diverse abilities.

The design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design.

2 Flexibility in Use
The design accommodates a wide range of individual preferences and abilities.

3 Simple and Intuitive Use
Use of the design is easy to understand, regardless of the user's experience, knowledge, language skills, or education level.

5 Tolerance for Error
The design minimizes hazards and the adverse consequences of accidental or unintended actions.

4 Perceptible Information
The design communicates necessary information effectively to the user, regardless of ambient conditions or the user's sensory abilities.

6 Low Physical Effort
The design can be used efficiently and comfortably and with a minimum of fatigue.

7 Size and Space for Approach and Use
Appropriate size and space is provided for approach, reach, manipulation, and use regardless of user's body size, posture, or mobility.
