## Looking for Partners/Donors/Sponsors

Countries	We're looking for support from businesses throughout Europe. Especially nearby countries to the event: Albania, Italy, Croatia, Macedonia, Montenegro, Kosovo, Greece
Profile	With small financial support from Tirana Municipality this year, DMO Albania is organizing this big festival to include all contest participants in a great event to celebrate the art of photography. This is just the beginning. Our goal is to turn it into a national yearly event the community, artists, businesses, and tourists will look forward to attending. This is why, we're looking for additional sponsors, donors,

and partners to contribute to the financial budget and event success. Funds raised will attract the best professional photographers to participate in forums and talks as well as known artists from different countries to show their exhibitions in Tirana. Funds will also be dedicated to raising event awareness and seek to turn it into a national competition that extends beyond Tirana. We want to elevate Tirana as a hub for photography, including featuring a photography market in the Skanderbeg square and many more events. Opportunities are endless with the right partners.
