Short description of the project, including its aims	<p>We would like to participate as the partner in the Europe for Citizen project – Network of Towns.</p> <p>Multikultura is representing the Municipality of Krakow as a member of the Civic Dialogue for Culture (http://www.kdokultura.blogspot.com) which was established by the government to inspire cooperation among the entrepreneurs, public institutions and local NGOs with emphasis on disadvantaged groups.</p> <p>Members of MULTIKULTURA are co-founders of the first cross-Berlin-Wall twin town agreement between Kraków and Nuremberg.</p>

	<p>Continuing this good practices MULTIKULTURA is in constant cooperation with always growing number of European cities, actively participating in the Euro network of CITIES IN INTERNET http://www.mwi.pl/ The Union of Associations Multikultura has a good experience as international project coordinator, and as local coordinator of large number of schools. For example 10 years ago we coordinate with a great success the project on the on-line collective poetry writing. Multikultura organized poetry festivals in Kraków, Granada, Paris, Athens and Rimini. The www.eMultipoetry.eu project is still functioning and moreover the collective poetry writing is still growing internationally. The project is now also under the UNESCO patronage. The number of participating countries and individual poets from all over the World is growing on daily bases. You are welcome to participate in the collective poetry writing on the chat we have on this website. This activity is continue in the recent project http://www.epublisher-platform.eu/poems that allow young poets for innovative publication of their first poems projected on the city walls.</p>
<p>Role of the partner organisation in the project</p>	<p>Multikultura specializes in exploitation of eLearning, multimedia education technology, applying such methods like internet platforms, training films, educational television, and video games. Our programmers and graphic create three-dimensional and two-dimensional computer games in the interactive contents, such as visualizations and animations. It allows us to create applications for web browsers, personal computers, video game consoles and mobile devices such as phones, tablets. This increase the dissemination of project popularity among young people internationally. You can also see our latest production in the project on the legends of different EU countries. http://fabulaloci.pl/ The created game is the Europe-wide promotion of the local history and culture.</p> <p>If you need a trustworthy and reliable Partner from POLAND.
